4. Call with Sandhya Parshionikar, Ph.D.

Sandhya is replacing Dan Hautman. She is acting director and will not be confirmed until end of September.

It was a get to know each other meeting and was a good call. Judy Morgan, 3 or 4 people from state labs, Will Adams, etc ... She used to be in Dan's office 10 years ago and is familiar with TNI. Both Sandhya and Will were very personable.

There was not much conversation on objectives. APHL method concerns were talked about. No progress on Method 200.8 –Jack Creed is no longer with EPA, so the effort has stalled.

There is only one Drinking Water certificate class per year. The Committee discussed possible options of someone to talk to in EPA Region 3 about requirement to take the DW class. Ilona will see if she can find something in Lynn's notes since some EPA regions participated in the evaluator calls she used to do.

6. Cannabis Regulators Association (CANN-RA.org)

Jerry is still planning to send a copy of the Training Course Catalog and current DRAFT data integrity language in Volume 1 Module 2 and data integrity language in the new Volume 1 Field Standard. He is also now thinking about sharing the Cannabis NY and OR presentations from NEMC.

7. PT Program Outreach

The PTPEC worked on a Position Statement that went to Advocacy. It was approved by the Board and posted in December 2023. The PTPEC still has an action item to continue reaching out to non-NELAP states to involve them, but it is not clear if this is something PTPEC should be doing or was submission of the paper to Advocacy all that was needed and Advocacy will continue to reach out?

The Committee discussed this and determined that they would prefer there be one line of communication and the PTPEC can close their action item. The Advocacy Committee requests that PTPEC let them know when there are PT related updates of interest that can be shared through the Ambassador program with non-NELAP ABs.

8. Updated NELAP Vision and Outreach Plan

Still looking at ASDWA - Association of State Drinking Water Administrators. Do they still do teleconferences? Steve used to call into them. Jerry will investigate this.

Jerry's impression is that we can't expect a lot from EPA until late in the year. There are lots of organizational movements and retirements. Things need to settle a little, but will keep this item on the agenda. Marlene noted she thinks we should not wait until the dust settles.

9. Cannabis Regulators Association (CANN-RA.org)

Jerry is still planning to send a copy of the Training Course Catalog and current DRAFT data integrity language and/or data integrity language in the new Volume 1 Field Standard.

10. New Business

There was no new business.
