Stephanie Rippeon	X		
Patsy Root	X		
Valerie Slaven			
Alfredo Sotomayor	X		
Tracy Szerszen	X		
Michelle Wade	X		
Past Chair			
Sharon Mertens			

AGENDA

1.0 Review of Agenda and Consent Agenda

Agenda Approved: 6/10/2026

Consent Agenda: Approved 6/10/2026

2.0 Review of SOP 1-101, Operation of TNI Committees

Based on a conflict between this SOP and the TNI Bylaws and a subsequent observation regarding composition of task forces, the following changes were made by the Policy Committee:

- changed the minimum number of individuals on committees from 5 to 7 in Section 7.1.6,
- added task forces to the title of Section 9.0,
- split Section 9.0 into 2 subsections, Section 9.1 on subcommittees and workgroups and Section 9.2 on task forces,
- revised Section 9.1.4 by replacing “the work product is” to “any recommendations are,”
- added Section 9.2 on task forces with comparable language to Section 9.1, and
- revised Appendix A by adding an exemption on membership for the Finance Committee.

This SOP requires review and approval by the Board.

Motion to Approve SOP 1-101 with changes: Patsy Root

Second: Maria Friedman

Approved: Unanimous

3.0 Review of SOP 1-130, Maintenance of the TNI Glossary

This SOP was approved by the Board in September 2024. It authorizes the Policy committee to take on the role of maintaining a Glossary. The SOP discusses terms defined in standards as well as terms defined in other TNI documents such as policies and SOPs. The SOP clearly indicates that terms developed by the Consensus Standards Development Program may not be changed by the Policy committee. The SOP requires conforming changes to all policies and SOPs if a definition is changed.

This revision made the following changes:

- Added a sentence to Section 2 indicating the Glossary is published on the TNI website.
- Moved ISO 17000 from References to Related Documents.
- Added SOP 1-104 to Related documents.
- Edited Section 5.4 by removing the addition of a modifier to a term.
- Revised Section 5.5 by giving the Board the responsibility to approve any changes to definitions.
- Deleted Section 6 on Records and edited the new Section 6 on Format to better define how the Glossary is presented.

This SOP does require review and approval by the Board.

Motion to Endorse SOP 1-130 with changes: Robin Cook

Second: Patsy Root

Endorsed: Unanimous

4.0 Potential Review of SOP 4-109, PT Program Standards Review and Adoption

This is a new SOP for the PTP EC review and acceptance of PT standards. Comparable SOPs exist for NEFAP and NELAP.

This SOP does not require any action by the Board.

~~~

**Discussion:** No questions or comments.

## CONSENT AGENDA

### Approved June 10, 2026

#### 1.0 Approval of May Minutes

#### 2.0 Update on Standards Development

New drafts of Modules 2 and 5 of the laboratory standard were posted recently. This table was prepared to provide a status report and will be updated as monthly.

| Standard | NOI | DS/Sum | RDS/R2C | FS/R2C  | FSA      |
|----------|-----|--------|---------|---------|----------|
| ELV1M1   |     |        |         |         |          |
| ELV1M2   |     |        |         |         |          |
| ELV1M3   |     |        |         | 7/25/23 |          |
| ELV1M4   |     |        |         |         |          |
| ELV1M5   |     |        | 6/1/26  |         |          |
| ELV1M6   |     |        |         | 1/26/23 |          |
| ELV1M7   |     |        |         |         |          |
| ELV2M1   |     |        |         |         |          |
| ELV2M2   |     |        |         |         |          |
| ELV3     |     |        |         |         |          |
| ELV4     |     |        |         |         |          |
| FSMOV1   |     |        |         |         | 11/10/25 |
| FSMOV2   |     |        |         |         |          |

Key

NOI – Notice of Intent to modify a standard.

DS/Sum – Draft standard and summary of changes posted.

RDS/R2C – Revised draft standard and Response to comments posted

FS/R2C – Final standard approved by CSDP and final Response to Comments posted.

FSA – Standard adopted by program with an implementation date.

#### 3.0 [Reserved]

#### 4.0 [Reserved]

#### 5.0 CONSENSUS STANDARDS DEVELOPMENT PROGRAM (CSDP)

##### 5.1 CSDP Executive Committee

| 2026 Objectives                                                                                                                                                                                      | Status                                                                                            |
|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---------------------------------------------------------------------------------------------------|
| Continue to develop policies and procedures that guide standards development to ensure full compliance with all relevant TNI requirements for Expert Committee operations and standards development. | 2/11: Continue to provide monitoring and oversight of standards development by expert committees. |
| Ensure consistency and uniformity between Volumes and Modules of the Standard                                                                                                                        | 2/11: Reviewing DS from expert committees to ensure consistency and lack of conflict.             |

|                                                                                                                                                                                        |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |
|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Provide technical and administrative assistance, guidance documents, checklists, and other tools to facilitate the implementation of all Standards.                                    | 3/11: Prepared/submitted comments on Draft Standards.<br>4/8 Temperature at Receipt requirements removed from EL V1M2 and deferred to expert committees (EL V1M3-7) who all reported requirements covered in their respective modules.                                                                                                                                                                                                                                                                                                                                                                                                                         |
| Provide opportunities for stakeholder involvement throughout the development process and assist Expert Committees in dissemination of pertinent information and responses to comments. | 2/11: Advised committee chairs that standards naming convention (previously approved) was undergoing further potential revision                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |
| Continue the Standards revision process, including assuring a 'big picture' review prior to any Module becoming final                                                                  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |
| Administrative Activities                                                                                                                                                              | 2/11: Reviewed expert committees' election of 2026 leadership roles. Review and approved 3 <sup>rd</sup> term request(s).<br>3/11 preparing for election of Vice Chair. A number of requests for term extensions on expert committees reviewed and approved. New expert committee members approved.<br>4/8 Debbie Bond elected as Vice Chair of CSDP EC. Nicole Cairns welcomed to executive committee. #### 5.4 Field Activities Expert Committee

| 2025 Objectives                                                        | Status                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |
|------------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Complete revisions to Volume 2.                                        | <p>2/11: Committee is expecting to finalize the Draft Standard for Committee vote. The Summary of Changes will then be completed, and the Standard will be posted for comment late February/early March.</p> <p>3/11: Additional comments are being resolved. The Committee will be meeting later this month to review the additional updates for vote.</p> <p>4/8: Working towards resolving final questions and making some changes based on updates in NELAP Volume 2. Meeting end of month for final resolution for voting.</p> <p>5/13: The Committee is meeting this week to finalize assessor qualification language that has been getting worked on by email. The Committee will also be reviewing final language on other requested changes that have been emailed for review prior to the meeting. The initial final formatting of the Draft Standard is complete. The Change Summary needs to be prepared and then the Committee will vote to approve the Standard. This should be completed before the Houston meeting.</p> <p>6/10: Progress continues with another meeting scheduled for this Friday.</p> |
| Assist NEFAP in planning for Sampling Conclave.                        | <p>2/11: The Sampling conclave will be June 2026. See NEFAP EC for additional information.</p> <p>5/13: Katie will be working with Tracy on a presentation for the 2026 Field Conclave on June 16, 2026.</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |
| Discuss addition of media-specific field sampling modules to Volume 1. | 2/11: The committee believes this is not needed given the new Annex in Volume 1.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |

Respond to SIRs as necessary.

Work with the NELAP EC to develop tools to facilitate the implementation of the new Volume 1 Standard including providing webinar/webcast on the changes for the previous version.

2/11/26: Work will continue on the Accreditation Process Guidance Document after the Volume 2 Standard is posted.

6/10: Katie has half of the Boston training (Field Sampling & Measurements: Ensuring Reliable Results) recording complete. It will be completed by the end of the month and ready for posting.

Administrative Activities

## 5.5 Laboratory Accreditation Body (LAB) Expert Committee

| 2026 Objectives                     | Status                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |
|-------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Finalize Standard V2M1, Revision 2. | <p>2/11: Workgroups are continuing to help finalize language:</p> <ul style="list-style-type: none"> <li>- DRAFT language for Assessor Qualifications is just about complete.</li> <li>- ISO/IEC language being removed from the Standard has been gathered. The Committee needs to review this proposal.</li> <li>- Comments from Conferences are being reviewed for any additional changes to the DRAFT Standard.</li> <li>- The Summary of Changes needs to be completed prior to posting the Revised DRAFT Standard (Rev 2).</li> </ul> <p>3/11: The Committee continued its review of changes to the Standard. The Committee is getting support to change Matrix – Technology – Analyte to Matrix – Method – Analyte.</p> <p>4/8: Work is continuing on final language for assessor qualifications and training. The Committee is considering additional meetings to expedite completion of the Standard. The Committee also met with Debbie Bond to discuss language additions to be included in Module 2 – see QMS update.</p> <p>5/13:</p> <ul style="list-style-type: none"> <li>• The Committee is continuing to refine the Assessor Qualifications. The new draft gives a little more flexibility. The focus was on observations of assessors doing assessments. There was also discussion regarding third-party assessors and reciprocity between ABs and duplication of effort. Each AB does have its own processes and it is still important that they ensure a new assessor is following their processes. This topic will be further discussed by the NELAP AC.</li> <li>• Matrix-method-analyte change was discussed. There is still support for this change. Prevents accreditation solely by broad technology categories without method specificity.</li> </ul> |

- Committee will begin work on identifying ISO/IEC language being removed from the Standard to help with formatting for posting.
- There was discussion on changing corrective action responses and reviews to 30 days for the second response and leaving the first response at 45 days.

The group will start up a process for more thorough review of the standard using email instead of meeting twice this next month.

6/10: Paul Bergeron raised an issue on assessor qualifications related to a state requirement that assessors must have a minimum of a bachelor's degree. The current Draft has expanded qualification requirements to allow for non-bachelor's degree. Paul is looking into this further with their dual program in mind and will consult legal counsel as needed. This will also be discussed with the NELAP AC. Can a NELAP AB have more stringent requirements and does this affect secondary accreditation? Language will be left as is in the Draft.

Some Committee members submitted comments on the overall Draft. Ilona was asked to produce a final Draft of the Standard this month and insert all comments received into this Draft to expedite review. She will pull the two versions of the Draft the Committee has worked on into one document and include recommend language for editorial changes

- Discuss and rule on any comments  
Persuasive or Non-persuasive

2/11: The Committee is confirming that responses are still consistent with changes made to the Standard and should be voting on this document in February/March.

3/11: The Response to Comments document has been updated and is being reviewed by Committee members for voting this month. Letters will be sent to commenters after the table is approved.

4/8: More time was needed to review and make updates to the document. It will be an agenda item during the April meeting.

5/13: The Committee is finalizing a review of the Response to Comments document for an email vote.

6/10: Work progressed on the Response to Comments document. More changes are needed. A workgroup was developed to help with this effort to have a final version for vote in June.

- If controversies identified, publish  
Revision 3 and receive/review  
comments again.

Review and update Technical Review  
Checklist as needed based on changes to  
standard and the evaluation process.

Work with the NELAP AC to revise the evaluation process.

2/11: Work will begin in March.

5/13: Aaren and Ilona are planning to meet end of May to outline the process to begin writing.

6/10: Scheduling conflicts with Committee and consulting work will push this into July/August.

Provide technical assistance in developing tools to facilitate the implementation of the Standard including providing a webinar/webcast training on the new Standard.

Respond to SIRs s necessary.

Administrative Activities

2/11: Membership will be finalized in February. Extensions for third terms are being requested to complete the Draft Standard.

3/11: Extensions for additional terms have been voted on and are being sent to the CSDP EC for approval (Aaren Alger, Michael Perry, and Socorro Baldonado). The Vice Chair (Amy Steurwald) was added to the CSDP EC meeting notification to provide coverage for the Chair when she cannot attend.

4/8: The three terms were extended, and Aaren will continue as Chair of LAB.

## 5.6 Microbiology Expert Committee

| 2026 Objectives                            | Status                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |

## 5.9 Radiochemistry Expert Committee

| 2026 Objectives                                                                                                                                                                  | Status                                                                                                                                                                     |
|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Revise Module 6 as needed.                                                                                                                                                       | <p>2/11: The Committee is not planning to make any content updates to Module 6.</p> <p>3/11: Radiochemistry course examples were sent to QMS for inclusion in Annex C.</p> |
| Provide technical assistance in developing tools to facilitate the implementation of the Standard including providing a webinar/webcast on the changes for the previous version. |                                                                                                                                                                            |
| Work with the "PT Expert Committee to resolve reporting uncertainty with PT results during their Standard development process.                                                   | 2/11: Work in progress.                                                                                                                                                    |
| Develop and present a training class geared towards people that are not experts in the field.                                                                                    | 2/11: The Committee is developing a 4 hour course that will be held in Houston and then recorded as a webinar.                                                             |

3/11: A course description and learning objectives are being developed for the course for posting with the opening of registration for Houston.

4/8: A course description and learning objectives have been submitted.

5/13: The workgroup is finalizing material for the course in Houston.

6/10: The workgroup is making progress on the training material and plans to have a Draft for Committee review at their June meeting. The training will be an expansion of the live training done at the Winter Forum in Ohio. Training logistics were discussed with Ilona. The training will be offered as a Webcast post conference. There are 9 students currently signed up for the course.

Respond to any SIR as necessary.

Work with the PTP EC to develop Non-Potable Water PTs and/or other PT issues

5/13: The Committee is looking at stepping back from this goal because of roadblocks. They have been reaching out to EPA, but information requested is currently not available. This will be looked at again in September.

Support Chemistry FoPT Subcommittee as needed with Radiochemistry FoPT limits.

Administrative Activities

2/11: Membership will be finalized in February.

3/11: New Committee members were added: Ezekiel Blain, Chad Lane, Joshua Prichard, and Hannah Vietor. The Committee has also requested that Amanda be approved for a third term.

4/8: Amanda has been approved for a third term and will continue as Chair of the Radiochemistry Committee.

## 5.10 Whole Effluent Toxicity (WET) Expert Committee

| 2025 Objectives                                                     | Status                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |
|---------------------------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Complete revision of V1M7 and publish a Draft Standard for comment. | <p>2/11: Committee reviewed comments received at the Forum in Boston. Some changes were made in the draft on the basis of those comments.</p> <p>3/11: Further progress made on comments from the Forum and in general. Chair has made some formatting changes to aid in clarity.</p> <p>4/8: Committee has decided on almost all submitted comments as persuasive or non-persuasive. There are some outstanding comments regarding definitions and some global formatting/style issues. A revised copy with all current decisions incorporated will be submitted for Committee discussion prior to the April meeting. The April meeting is delayed by 2 weeks due to a scheduling conflict.</p> <p>5/13: Most of the definition comments have been reviewed. The submitter withdrew a number of them because they added value to the Module by leaving as</p> |

Provide technical assistance in developing tools to facilitate the implementation of the Standard including providing a webinar/webcast on the changes for the previous version.

Complete the effort to establish a path to achieve data comparability for WET PT data.

Support as needed the QC Specialist badge for aquatic toxicity for the credentialing initiative.

Respond to any SIR as necessary.

Provide venue for sharing of information and best practices of WET labs.

#### Administrative Activities

they were. Chair will look to source documents for clarity on Standard Reference Toxicant v. Standard Reference Toxicant Tests (in terms of which is the preferred term).

6/10: Committee is nearing its final review of the Module in total to assure that the Module doesn't appear as Guidance and is written as requirements.

5/13: The Committee had a discussion via email regarding an assessment question about cleaning of test chambers. Essentially, there isn't a requirement for single use chambers and the committee was good with that.

1/14: 2 committee members approved for second terms. No member terms expired. At least one member has retired and will serve through the completion of the Standard. New members are needed.

2/11: 2 applications have been received for new members, both in the Accredited Organization stakeholder group. Due to balance issues, only one such member could be added. This should occur in conjunction with the February meeting.

3/11: Votes to add member to committee received. Committee at 12 members (6 Laboratory, 3 AB, 3 Other).

5/13: One more associate member added.

6/10: Matt Jones (KDHE) added to Committee as Voting member from AB Stakeholder group, as well as another associate member.

## 6. NATIONAL ENVIRONMENTAL FIELD ACTIVITIES PROGRAM (NEFAP)

### 6.1 NEFAP Executive Committee

| 2026 Objectives                                                                              | Status                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |

| Market the new Field Activities Standard to FSMOs.                                           |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |
| Review and comment on V2 Draft Standard(s).                                                  | 2/11: The Committee was provided with a copy of the DRAFT Standard to provide initial comments before the Field Activities Committee vote on the DRAFT Standard.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |
| Complete NEFAP AB re-evaluation process.                                                     | 2/11/26: PJLA is submitting updates to their application.<br>3/11: Evaluations will begin in the order the applications were received. As the evaluations are completed Ilona will be maintaining a table of updates to show when the technical checklist review is completed, the online "onsite" is scheduled, the "onsite" is completed, the witness is scheduled, the witness is completed, the report is sent to the QA Reviewer, the report is sent to the Recognition Committee and when the NEFAP EC votes to complete the recognition. The evaluation will begin with A2LA, then PJLA and then ANAB for NEFAP and A2LA and then ANAB for PTP. Since the TNI Standard Evaluations will be done alongside these evaluations the order will be A2LA (Start: 3/15), PJLA (5/1), IAS (7/1) and ANAB (9/1).<br>4/8: Review of the application has been started for A2LA. The PJLA start date has been extended to 5/15/26.<br>5/13: Work is progressing. Looking at making a change to the Recognition Committee due to a Conflict of Interest that is delaying establishment of evaluation team. Should be resolved this week.<br>6/10: Review of A2LAs checklists lead to a request by A2LA to update the checklist information through a meeting instead of A2LA providing more detail in the checklist they turned in. This will expediate their evaluation. Discussed with Jerry and approved. This meeting is scheduled for June 9 <sup>th</sup> . Waiting for confirmation that Kevin Holbrooks can Chair the Recognition Committee since Marlene Moore now has a conflict. PJLA's has updated material, and their review will begin in the next two weeks. |
| Continue to develop training courses and implement strategic plan as it relates to training. | 2/11: Field Sampling and Measurements: Ensuring Reliable Results held in Boston on January 15 with 7 students.<br>4/8: Katie is preparing to record class as Webcast that will go out on next training announcement.<br>6/10: First half is now recorded and second half should be complete by the end of June. It will then be ready for posting and will be included in the next training announcement.<br>Courses in development:<br>– <u>Internal Auditing for Field Sampling and Measurement Organizations. This course is being developed within the NEFAP EC.</u><br>○ 2/11: Course planned for March or April.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |

- 3/11: Megan reviewed learning objectives. Course will be posted the end of this week.
- 4/8: Scheduling for May 29, 2026 – will be part of an announcement with posted webcasts and other training class in May.
- 5/13: Submitted for inclusion on the Spring announcement.
- 6/10: The class was given on May 29 with 8 participants. This was the first class given where half of the class was self-paced and the second half was by webinar. Students listened to the pre-recorded session and then took an online exam. The exam and highlights from the first half of the class were reviewed at the start of the webinar and there was a Q&A session. A new Training Survey was given at the end of the course with a completion rate of 88% and an overall class score of 4.7. Knowledge of the subject material before the class was 2.9 and was 4.3 after the class.
- Key Concepts and Implementation of FSMO Volume 1 Standard

Continue to aggressively market the Program utilizing the strategies outlined in the strategic plan.

- Hold the fourth annual virtual Sampling Conclave

6/10: Tracy and Katie submitted a newsletter article to the Advocacy Committee.

2/11: Conclave planned for June 2026 – The Committee is looking at June 16-17, 2026, with a day on PFAS sampling and a second on other topics. Anand is reaching out to EPA for possible participation on PFAS sampling and based on the feedback the Committee will finalize the Conclave details during their February meeting.

3/11: Jerry has been forwarding abstracts for possible speakers. JEA will be able to participate. Tracy is reaching out to other possible speakers.

4/8: Tracy updated an announcement that is now ready for publication. It has been sent to Jerry Thao for posting on Linked IN and was sent to Jan for distribution by email. The date is June 16<sup>th</sup> and if there are lots of abstracts submitted ... it may extend to June 17<sup>th</sup>.

5/13: Shaping into a great 2026 Conclave. There will be 9 presentations. Planning to have abstracts posted and registration open next week.

6/10: The 4<sup>th</sup> Annual Conclave is now posted for registration with a full agenda with great presentations planned. Registration is currently at 32. Another email will go out late this week to provide people with a reminder to register.

- Hold a workshop on Sampling for PFAS

2/11: The Committee is looking at Lessons Learned from the Field and moving PFAS to the Conclave.

Update policies and procedures to reflect any changes in NEFAP.

- Address comments on SOP 5-104 that were provided to the NEFAP EC in 2020.
- Conduct 5-year review of SOP 5-107.

Work with the Field Activities to provide technical assistance in developing tools to facilitate the implementation of the Volume 1 Standard including providing a webinar/webcast on the changes for the previous version.

Assist NEFAP ABs with implementation of the FSMO Volume 1 Standard.

6/10: PJLA is preparing communications to inform FSMOs about the release of the new Volume 1 standard and the future transition process. ABs have until December 1, 2028, to complete the transition.

Evaluate need for improved consistency in NEFAP AB Scopes of Accreditation.

Administrative Activities

2/11: Committee membership will be updated in February.

3/11: The Committee added new members: Paul Bergeron and Elizabeth Turner.

6/10: The Committee added a new member:

## 7. NATIONAL ENVIRONMENTAL LABORATORY ACCREDITATION PROGRAM (NELAP)

### 7.1 NELAP Accreditation Council

| 2026 Objectives                                                                     | Status                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |
|-------------------------------------------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Sustain governance role for the program and promoting consistency in AB operations. |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |
| Review and provide comment on V2M1 revised draft Standards.                         | <p>2/11: There was discussion regarding ethics and data integrity procedures related to notification of ABs. The NELAP AC will review Draft V1M2 and Draft V2M1 language during the February meeting and possibly provide comment.</p> <p>3/11: More time was needed to continue to review the information, so discussion will be completed during March meeting.</p> <p>5/13: The agenda included a request for input to LAB regarding Assessor Qualifications and how to appropriately qualify assessors, particularly third-party assessors used by accreditation bodies. LAB's intent was to ensure accrediting bodies remained actively involved in evaluating assessors regardless of whether they were direct employees or contractors. The language attempted to balance accountability with flexibility. There was some</p> |

|                                                                                                                                        |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |
|----------------------------------------------------------------------------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
|                                                                                                                                        | <p>general agreement that some observation could be done virtually but under what circumstances and how would need to be included. It was noted that labs are asking for stricter assessor qualifications.</p> <p>6/10: This will be reviewed as the AC comments on the Standards.</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |
| <p>Review and comment on other revised modules of the TNI EL Standard (Volume 1) as the Expert Committees publish Draft Standards.</p> | <p>2/11: The NELAP AC completed review of comments on the draft V1M4 Standard and submitted them to the Chemistry Committee.</p> <p>6/10: A plan was developed on how to review the multiple standards as they post for comment. Ilona prepared a table for ABs to enter their comments, and each standard will be reviewed in the order it is received. Review has begun on V1M2.</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |
| <p>Address issues of concern to NELAP ABs as they arise.</p>                                                                           |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |
| <ul style="list-style-type: none"><li>– Incubators</li></ul>                                                                           | <p>4/8: ABs are seeing an increase in data being generated where incubators have been out of range, but data was reported without any flags or notes. Concern that there are new employees that are not following requirements.</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |
| <ul style="list-style-type: none"><li>– Technical Specialists</li></ul>                                                                | <p>4/8: The Committee discussed how multiple Technical Specialists are maintained in databases and how communication is handled to laboratories. In general, states recognize that there are multiple technical specialists, but they request the name of one person to send relevant updates to that will be responsible for communicating information to the other Technical Specialists in the lab.</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |
| <ul style="list-style-type: none"><li>– Method Codes</li></ul>                                                                         | <p>5/13: Paul Junio attended as a guest to discuss Method Codes. There was support to reduce duplicate codes and opposition to retroactive changes to existing method codes. Paul proposed that if the underlying method itself had not changed, he would not create a new method code simply because a new edition of Standard Methods had been published. Since revision dates are already captured separately within the system, the same method code could continue to apply unless a specific request justified creating a separate code. This started a discussion on whether ABs depended on edition numbers or revision dates. It was cautioned that even modifying existing code descriptions to include additional editions could effectively function as a retroactive change and potentially create major database management problems. Paul will take the feedback and work on a more formal proposal.</p> |
| <ul style="list-style-type: none"><li>– IDEXX LED UV viewer</li></ul>                                                                  | <p>5/13: The Council discussed helium supply shortages, thermometer calibration requirements for incubators and reference thermometers and the IDEXX LED UV viewer (discussed with the Council by Patsy Root fall 2025). Millie Rose (IL) stated that EPA Region 5 had recently informed laboratories and accrediting bodies that the LED viewer is not currently acceptable for Safe Drinking Water Act compliance testing. Others have received similar</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                           |

feedback. Cathy Westerman (VA) commented that after hearing IDEX's original presentation, she believed the scientific evidence strongly supported use of the LED system and had allowed laboratories in her program to use it. Kristin responded that EPA's concern appears to focus more on formal regulatory approval and method language than on scientific validity. This will continue to be monitored.

6/10: ABs reported receiving guidance from multiple EPA regions indicating that LED lamp substitutions are currently not acceptable for drinking water and certain Clean Water Act methods.

- Colilert media

6/10: Patsy provided the following update by email:

All of our media have critical supplies, and we triple source vendors for each of them. For one component of Colilert-18, we had to move to an alternate, approved vendor due to conditions we are all aware of right now regarding supplies, shipping, etc. Although this is an approved vendor, they needed ramp up time and we needed to QC raw material and finished lot. All this has taken time, and, out of an abundance of caution, we have put Colilert-18 on allocation. This means, for the short term, we are asking that each purchase be no more than 3 boxes. We have more in all our global locations but are being equitable. If someone really needs more than 3 boxes, we can do that.

- Helium shortage

6/10: Given the limited impact outside California and the absence of widespread concerns, the AC agreed to remove helium shortages from future agenda follow-up items.

- Asbestos PT

6/10: It was clarified that laboratories accredited primarily by New York may obtain asbestos PTs and that, for potable water asbestos testing, laboratories may also participate under secondary accreditation arrangements with New York.

- Primary AB

6/10: A question was raised regarding ongoing discussions about whether one TNI state may serve as the primary accreditor for a laboratory located in another TNI state. This needs more research.

Work with the LAB to revise the evaluation process.

2/11: Work will begin on this in March.

Complete current evaluations and plan for the future.

2/11: The Texas evaluation was completed and will be reviewed for vote during the February meeting. Ilona reached out to previous attendees participating in the Evaluation quarterly meetings and meetings will start again in March. She is also working on an update to the Evaluation summary that will be provided with monthly reports in March.

3/11: The final report was reviewed and the NELAP AC voted to renew recognition.

4/8: Illinois submitted an application on 3/10/26 (Steve). Minnesota requested an application extension that was approved for submission in April (Aaren). New Jersey's submission is being postponed to July because their previous evaluation was delayed so there was more time between the two evaluations/ (Aaren). California is working on an application. Aaren completed the evaluation of New Hampshire and submitted report to the AC.

5/13: California has reached out to Paul Junio to begin discussing LAMS needs.

4/8: Minnesota requested an application extension that was approved for submission in April (Aaren).

5/13: Minnesota had a misunderstanding about who was on their evaluation team, but this has been clarified and the evaluation has received their application.

Continue to provide information sharing venue.

Review Policies and Procedures for 5 year review and as needed.

2/11: Round Table discussions are still in progress.

2/11: The Mutual Recognition and Dispute Resolution SOPs are being reviewed.

4/8: The Dispute Resolution SOP is on the April meeting agenda.

5/13: The Committee reviewed a Draft prepared by Cathy and liked the changes. The SOP is being forwarded to the NELAP EC before the NELAP AC votes. The NELAP EC will review it during their May meeting and then comments will be reviewed by the Council in June.

Administrative Activities

6/10: Jody Koehler has been replaced by Tina Trevino as the representative for Texas.

## 7.2 NELAP Executive Committee

| 2026 Objectives                                                              | Status                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |
|------------------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Supplement SIR with Implementation Guidance for non-SIR questions.           | 2/11: The SIR SOP will be reviewed for possible updates.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |
| Review and provide comments on all EL Draft Standards as they are developed. | 2/11: The Committee prepared comments on the V1M4 <i>Summary of Suggested Changes and Justification</i> document and reviewed a portion of the V1M4 Draft Standard (through Section 6.3) of the comments submitted by a Committee Associate Member. The comments were sent to the Chemistry Committee.<br><br>6/10: EC members will begin review V1M2 outside of meeting time and enter comments into a single table housed in Teams. This process allows EC members to view one another's comments, avoid duplication, and build consensus before formal discussions. |

Prepare to assume role as Recognition Body for NGAB status (parallel to NEFAP and PTPEC recognitions)

Develop Draft Policies and SOPs for NELAP as needed.

- Revise SOP 3-103, Standards Review
- Revise 3-105: SIR Management

- Revise 3-106: Standard Suitability

- Conduct 5-year review of POL 3-101 and SOP 3-108.

Sustain SIR progress and supplement SIRS with Implementation Guidance for non-SIR questions.

Work in cooperation with the NELAP Accreditation Council (AC) to assist in implementing this program.

Administrative Activities

See below

4/8: The Committee is updating this SOP to remove the requirement of an SIR Subcommittee. Work on SIRs will be handled by the committee since the backlog has been caught up. This update will be reviewed in April.

5/13: On hold until SOP 3-106 is complete.

3/11: Scheduled for March meeting

4/8: Committee is working on an outline for the SOP update and will continue to work on this SOP in April.

5/13: Work is progressing on this SOP.

2/11: Two SIRs were posted as completed SIRs. One SIR will be reviewed by the NELAP AC during the February meeting because of a voting comment. Four SIRs were received and determined to not be SIRs.

4/8: See note about SOP 3-105 (SIR Management) being updated. Three SIRs were submitted in March.

5/13: Two SIRs were submitted in April.

6/10: One SIR was submitted in May and it was found to not be an SIR.

2/11: Membership will be updated in during the February meeting.

3/11/26: Three new committee members were added to the NELAP EC. They are: Taryn Hurley (AB-OK), Gretchen Wellfinger (AB-NY), and Tracy Szerszen (AB-NGAB-PJLA). With Maria Friedman's rotation off the Committee, the Committee voted in Shari Pfalmer as Chair and Patty Carvajal as Vice-Chair. Shari was the former Vice-Chair.

## 8. PROFESSIONAL DEVELOPMENT PROGRAM (PDP)

### 8.1 PDP Executive Committee

| 2026 Objectives                                                                                       | Status                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |

| Establish and implement guidance, policies, procedures, and tools necessary to implement the program. | 2/11: Website and Committee Applications now operational. Notice of creation of committee posted.<br>3/11: SOPs 1-100 and 1-101 were updated to include the Program into the SOP numbering system and to include it in the TNI Committees SOP.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |
| Provide oversight and guidance to the Credentials and Training committees.                            |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |
| Implement the Jack Farrell Analytical Excellence scholarship.                                         | 2/11: Notification and application were developed and distributed for Jack Farrell Scholarship. Developing review process for applications received.<br>3/11: A workgroup was developed to begin work on a process for selecting scholarship recipients. The workgroup met and is working on an SOP that will be reviewed next week. One scholarship application has been received. Two inquiries have been received.<br>4/8: There are two applications. Follow-up information has been requested for more information and review of the applications by the Workgroup will start later this week. The Workgroup is continuing work on an SOP for the selection process. Ilona provided some words to describe Financial Need for those questioning what this means in the application.<br>5/13: Applicants have been contacted, and applications have been updated. The Scholarship workgroup has prepared a Draft contract for each scholarship awardee and language is being drafted for notification letters to applicants. The Committee is looking at a mentor program that will likely be renamed to "advisor" to help applicants navigate the application process. Both applicants are looking at pursuing the credential through the Badge option and there was confusion on how this worked. Ilona worked with each applicant to answer questions and clarify the process. Jerry is working on a presentation to help reduce this confusion in the future.<br>6/10: There were two applicants that were reviewed receive scholarships. Both candidates developed a strategy that maximized training investment by selecting courses that supported multiple badge pathways simultaneously. The Committee approved the award to both candidates in the amount of \$1695.<br><br>There was substantial conversation on development of an Advisor for each scholarship recipient. This discussion will continue during the June meeting. The scholarship title was determined to be the "Jack Farrell Scholarship." The name will be changed on the website, SOPs, Charter, etc. |

|                                                                                     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |

| Establish an emerging professionals' initiative (however named). – Emerging Leaders | <p>Scholarship administration materials were developed for Committee review: Award letter, Scholarship agreement, Funding Request Form and FAQs. Suzanne Rachmaninoff will take on the role of administering the funds.</p> <p>2/11: Received great input during the Boston conference. Recommendation to look at a leadership program that includes training and mentorship. Established for people that want to take on more responsibilities in their workplace. Based on people wanting to take a new step, but not necessarily new or young in their professional development. This could be relevant to career, next generation of TNI Committee Chairs, etc. ... New to QA or TNI? Pair them up with an AB, industry person, etc. This pairing could rotate.</p> <p>3/11: Examples of similar organization will be looked at during the March meeting to help with discussion.</p> <p>4/8: The Committee is considering a course being developed for a free introductory course about the evolution of environmental regulations for newer professionals and directing others to more in-depth training. It would be available to all.</p> <p>4/8: The Committee likes changing the name to Emerging Leaders – it is more inclusive. Includes people wanting to develop leadership skills in current roles and those transitioning to other roles.</p> |
| Investigate opportunities to identify funding to support the program.               | 2/11: Received one vendor donation during Boston meeting.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |
| Develop and implement "Quality Time with TNI."                                      | 2/11: Quarterly live 1 hour event. Might include: Hot Topics (Tech Specialist, Standard Update Process), Meet a Member, Ask an AB, Back to Basics (MDL procedures, record keeping), etc.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |

| Continue to support Executive Director in implementing the Credentialing Initiative for a QMS Certified Professional. | <p>2/11: Exam given in Boston with 3 applicants and 2 passed:</p> <ul style="list-style-type: none"> <li>– Denise Johnson, NEORSD – Chemistry and WET</li> <li>– Katalina Li, Spectrum Environmental – Asbestos</li> </ul> <p>3/11: The committee discussed the grading procedure and agreed the technical module grading should be graded separately from the other questions. The committee also discussed</p> |

offering technical module exams in Houston to the current list of certified professionals.

4/8: The committee discussed 3 applications that have been received for individuals not attending a TNI meeting and discussed an option where the exams could be done by a member of the committee, or some other designated individual that lives close to the individual. These exams would be given 1-2 weeks before the in-person exam at a meeting so the individual could observe the exam preparation webinar. Tentative locations for July 2026 are:

- Charleston, SC (David Smit proctor)
- Sherwood, OR (Melanie Roshe proctor)
- Pittsburg, CA (Theresa Johnson proctor)

Continue to review current exam questions for accuracy and understanding.

Continue to develop KSA for Technical Specialist and then develop the exam.

4/8: The committee began reviewing KSAs for organics and developed 2 techniques for sample treatment before preparation, 12 techniques for sample preparation, 4 techniques for treatment after preparation, 4 clean-up techniques, 4 techniques, and 2 reporting techniques. The committee then developed the KSA for the 2 techniques before sample preparation.

5/13: Continued discussion of KSAs for organics and after discussing purge-and-trap and headspace, decided to simplify the number of techniques focusing on those most frequently used with the premise that a specialist for the primary technique could quickly master a related technique if needed.

6/10: Based on some KSA provided by ChatGPT on managing workflow issues for headspace analysis, the committee added a new section to Fundamental Laboratory Skills on managing workflow.

The committee then continued the effort started in May on simplifying the techniques used for organic analyses by reducing sample preparation to purge-and-trap, liquid-liquid extraction, solid-phase extraction, and liquid-solid extraction.

Review existing training courses and see if additional courses are needed.

Coordinate with TNI Training Committee in developing courses.

Administrative Activities

2/11: Alison Boren (Vermont) applied to be an Associate Member.

### 8.3 Training Committee

| 2026 Objectives                                                                          | Status                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |

| Continue to work with the Credential Committee to support this effort.                   |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |
| Look for opportunities to collaborate with other training providers.                     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |
| Post Webcast for how to complete training application to teach courses.                  | 2/11: Too be completed by next RFP.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |
| Work with vendors and other trainers to develop technical course training opportunities. | 2/11: Working with Credentialing to understand courses needed.<br>6/10: Working on developing a meeting with potential technical trainers in Houston.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |
| Develop new survey for webinars.                                                         | 2/11: To be reviewed during February meeting.<br>3/11: Though the Committee could not meet in February due to lack of quorum, Ilona shared the template for a course membership survey with some Committee members. The update will be reviewed by the Committee in March.<br>5/13: The survey is being sent to Committee members in the Survey application so they can see how it works and provide feedback. The survey will be used for the upcoming TNI courses and will provide a place to keep all feedback from a course – webinars and webcasts. It will also help monitor trainer effectiveness and allow review of class scores for possible inclusion in training course descriptions when a sufficient number of reviews are received.<br>6/10: The survey was used for two courses this month. One had an 88% return rate (7/8) and the other had 57% return rate (8/14). There was very good feedback and the new questions showed that people did feel they knew the subject material much better than they did at the start of class. The survey will continue to be used for webinars, but discussion of use for webcasts is in progress. |
| Continue to develop ideas for training courses and issue RFPs.                           | 2/11: Workgroup meeting before February training meeting. 2 new course applications received and being pursued. Followed up on Scott Sider's course development. Field Internal Audit course set for April.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |
| Review training to ensure it is not obsolete.                                            | 6/10: The Committee reviewed the budget and agreed with Jerry's recommendation to work on raising prices for many of the current courses being offered.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |
| Continue to update Course Catalog database as new courses are developed.                 | 6/10: Three new webcasts were posted.<br>– Introduction to TNI Assessments and Evaluations                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |

| <p>Implement all policies and procedures necessary to establish, maintain, and continually improve a national PT program to support environmental accreditation programs.</p> <ul style="list-style-type: none"> <li>– Address comments on SOP 4-101 that were provided to the PTP EC in 2025.</li> <li>– Conduct a 5-year review of SOP 4-108</li> </ul> | <p>3/11: SOP 4-101 proposed by subcommittee for approval. SOP 4-109. PT Program Standards Review and Adoption, scheduled for review and approval at March meeting.</p> <p>4/8 SOP 4-101 remains to be finalized as SOP Subcommittee did not meet. SOP 4-109 was approved by super majority ballot and forwarded to Policy for review. Five Year Reviews of SOP 4-102 and SOP 4-108 were initiated after assignment to the SOP Subcommittee.</p> <p>5/13 SOP 4-101 anticipated to move to Policy Committee following May meeting.</p> <p>6/10: SOP 4-101 being reviewed by committee as May meeting did not address; will conclude during June meeting. Anticipate some if not all of remaining PT SOP reviews to be completed in June.</p> <p>4/8 SOP 4-109 was approved by super majority ballot and forwarded to Policy for review. Five Year Reviews of SOP 4-102 and SOP 4-108 were initiated after assignment to the SOP Subcommittee.</p> <p>5/13 Five Year Reviews of all remaining PT SOPs assigned to SOP Subcommittee</p> |
| <p>Ensure that fields of Proficiency Testing (FoPTs) are created, maintained, and updated as appropriate to support environmental laboratory accreditation programs.</p>                                                                                                                                                                                  | <p>2/11: WET FoPT revisions await implementation. Uranium (mass) to be added to Drinking Water FoPT table.</p> <p>3/11 WETT FoPT table with effective date posted to website. Analyte Request Application to include U (mass) in DW table reviewed and sent to Chemistry FoPT subcommittee for processing consistent with SOP 4-107.</p> <p>4/8: Upon posting of WETT FoPT, question of effective date was raised, currently SOP requires 6 months from posting. If there are no comments this leaves little time for implementation. Committee will consider changing to 6 months from close of comment period.</p> <p>5/13 Resolution of WETT FoPT implementation will result from SOP 5 year review.</p> <p>3/11 Request to include U (mass) in DW table reviewed and sent to Chemistry FoPT subcommittee for processing consistent with SOP 4-107.</p>                                                                                                                                                                          |

4/8: Chemistry FoPT subcommittee is continuing to process the request for Uranium (mass) with inputs for the EPA sources invited to participate.

5/13 After a number of meetings with EPA representatives and other interested parties, the Chemistry FoPT subcommittee has withdrawn the ARA for U(mass) as currently presented. A new ARA will be submitted to resolve the original intent of the change.

6/10 New ARA sponsored by NJ and MN being submitted to combine the drinking water chemistry and radiochemistry tables

Develop resolution for reporting uncertainty with Radiochemistry PT results.

Ensure the effectiveness of the PT Provider accreditation and oversight program.

Complete PTP AB evaluations.

2/11: Revised SOP 7-101 approved.

3/11: Evaluations will begin in the order the applications were received. As the evaluations are completed, she will be maintaining a table of updates to show when the technical checklist review is completed, the online "onsite" is scheduled, the "onsite" is completed, the witness is scheduled, the witness is completed, the report is sent to the QA Reviewer, the report is sent to the Recognition Committee and when the NEFAP EC votes to complete the recognition. The evaluation will begin with A2LA, then PJLA and then ANAB for NEFAP and A2LA and then ANAB for PTP. Since the TNI Standard Evaluations will be done alongside these evaluations the order will be A2LA (Start: 3/15), PJLA (5/1), IAS (7/1) and ANAB (9/1).

Complete and gather information on PT Program metrics.

Continue working to be inclusive of non-TNI ABs.

Support the NELAP AC on method codes issues in LAMS as necessary.

4/8 Committee advised of 20 new analyte codes being added to LAMS. Committee confirmed and advised that these analytes were not currently on FoPT tables.

Work with PT Expert Committee to update Volumes 3 and 4 of the TNI Laboratory Standard

2/11: EL V4 reviewed and comments submitted to PTEC. EL V3 anticipated to be received in March for Executive Committee review.

Administrative Activities

2/11: Leadership roles remain unchanged. One member has retired and resigned his position; 3 vacancies being addressed to interested associates; committee balanced with 2 new associate members.

3/11: After meeting in closed session, executive committee elected a new member. Roster remains at 14; one vacancy remains. Complaint received and considered valid by Executive committee; sent to Chemistry FoPT subcommittee for processing consistent with SOP 4-102.

4/8: Complaint Subcommittee concluded the complaint was not valid primarily due to the analytes of concern not being on TNI's FoPT tables. Compliant resolution however resulted in a request to the TNI Board to establish a Task Force to address the issue of reporting of one analytical result for multiple methods and the issues evolving from small data sets.

5/13 With approval for a PT Task Force, initial meetings to develop the charter and objectives of the task force have begun; anticipate formation and membership in June.

6/10 Formative measures for the PT Task Force have begun; draft Charter under review and membership in the process of being established

## 10 ADMINISTRATION

### 10.1 Advocacy Committee

| 2026 Objectives                                                                                                                                              | Status                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |
|--------------------------------------------------------------------------------------------------------------------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Implement a plan for national accreditation and systematic outreach to data users that will explain and promote the benefits of a quality management system. |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |
| Provide an "Introduction to TNI" webcast for new members.                                                                                                    | <p>3/11: Jerry Parr has developed a draft to be reviewed at the April meeting.</p> <p>4/11: Draft presentation reviewed and committee decided it needs to be broken down into a simple overview and then others with more details on each program.</p> <p>5/13: The Committee reviewed Jerry's slides and provided feedback.</p> <p>6/10: The new presentation was finalized. It is much shorter, because some detail was removed for additional presentations such as CSDP and NELAP.</p> |
| Provide a "History of TNI and Laboratory accreditation" webinar for new members and the public.                                                              | <p>3/11: Existing free webinar by Jerry Parr and Marlene Moore, <i>Ensuring the Competency of Environmental Data Generation by accreditation</i>, is adequate for this goal.</p> <p>5/13: It looks like Jerry and Marlene's current course that is posted is sufficient.</p>                                                                                                                                                                                                               |
| Monitor EPA/federal activities for opportunities to share TNI's activities and promote national accreditation.                                               | 4/8: NELAP Vision and Outreach Plan – Possibly meet with EPA people in Houston.                                                                                                                                                                                                                                                                                                                                                                                                            |
| Deliver the State of National Accreditation Report to non-NELAP state contacts and trade associations at least every two years.                              | <p>2/11: In progress with anticipated completion in December 2026.</p> <p>4/8: Work will begin on this in July.</p>                                                                                                                                                                                                                                                                                                                                                                        |
| Look for opportunities to add TNI Ambassadors for non-NELAP states.                                                                                          | 2/11: One new ambassador, Heather Morgan – Alabama.                                                                                                                                                                                                                                                                                                                                                                                                                                        |

3/11: The Committee had its Ambassadors Meeting. One request is to have the Committee help Ambassador's provide updates by providing material for them to share.

Sustain

– organizing newsletter publication

2/11: Next Newsletter to be published in June 2026.

6/10: Newsletter is being formatted and should be published this month.

– support for Small Laboratory Advocate role

Provide outreach (e.g., presentations and papers) to promote The NELAC Institute and TNI's programs.

2/11: 2026 Presentations confirmed:

March 2026 ACIL P2 – Jerry Parr – Update on TNI (virtual)

April 2026 A2LA AnnCon - Paul Junio – Update on TNI Standards

May TCEQ Trade Fari – Jerry Parr - Update on TNI Standards

3/11: Jerry is planning an NEMC presentation with Judy. Lab's need more flexibility in modifying methods for their use. This flexibility could be granted if they are TNI accredited laboratories following their documented quality management system. This will be a plenary talk.

5/13: September 2026 IAS ELAP – Jerry Parr – Update on TNI Standards

Develop a new White Paper on acceptance of NELAP accreditations by non-NELAP states.

Serve as the Steering Committee for TNI's Annual Meeting

2/11: 2027 Forum will be in Long Beach from January 11-14.

**2027 FORUM**  
**January 11-14, 2027**  
[Hyatt Regency Long Beach](#)

Preliminary Schedule

| Time    | Monday: 1/11                                                                             | Tuesday: 1/12                                                                   | Wednesday: 1/13                                                   | Thursday: 1/14                                            |

| 5:30    | Reception                                                                                |                                                                                 | Board reception                                                   |                                                           |

Exhibit program runs from 3:00 on Monday to 3:30 pm on Tuesday.

Conduct other activities delegated to the  
Advocacy Committee

2/11: New tasks being considered:

- Promote use of NGABs
- Promote credentialing

4/8: Promote Use of NGABs – Article planned in newsletter.

6/10: This needs to wait until the next newsletter.

Promote Credentialing – Advocacy will provide support as needed. Credentialing Committee will work on an article for the newsletter.

Single PT – Jerry forwarded the new vision for a single PT for laboratories that only work in their home state to only perform one PT annually, at the option of the AB, to the PT Committee. The committee responded favorably indicating this was part of the new risk management approach in ISO and will be looking into this during their Standard revision.

PT acceptance limits - The committee discussed an issue raised limits may have a bias because of how data is reported for each method – same number reported for multiple methods and pooled into calculation of limits.

Administrative Activities

4/8: New Action List table developed for minutes to better track committee activities.

## 10.2 Policy Committee

| 2026 Objectives                                     |                                                                   | Status                                                                                                                  |
|-----------------------------------------------------|-------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------|
| Continue to develop and/or review SOPs and Policies |                                                                   | See Table below.                                                                                                        |
| Policy/SOP No.                                      | Description                                                       | Status                                                                                                                  |

| Reception 5:30       | Showcase 3:30 - 5:30 | Exhibit close 3:30                | Committee Report 4:15-5 |  |

- 2/11: The theme for this year's Symposium is Strengthening Public Trust in Science. 125 abstracts (97 oral and 28 poster) have been submitted for the NEMC part of the meeting. A draft of the TNI schedule was provided to committee chairs. 30 organizations (39 tables), including 5 lunch sponsors and 3 meeting sponsors, have signed up to be exhibitors; the meeting space has room for 68 tables.
- 3/11: 125 abstracts (112 oral and 32 poster) have been submitted for the NEMC part of the meeting. The TNI schedule is set as shown above with 12 committee meeting, the assessment forum, and mentor session. The EPA drinking water, wastewater, and hazardous waste programs have all committed to providing an update. Registration is on track to open April 6. 34 organizations (44 tables), including 5 lunch sponsors and 4 meeting sponsors, have signed up to be exhibitors; the meeting space has room for 68 tables.
- 4/8: 134 abstracts (111 oral and 33 poster) have been accepted for the NEMC part of the meeting. Attendee registration opened as planned on April 6. 43 organizations (54 tables), including 5 lunch sponsors, 5 meeting sponsors, and 5 Cybernet café sponsors have signed up to be exhibitors; the meeting space has room for 68 tables.
- 5/13: 55 organizations (65 tables), including 5 lunch sponsors, 5 meeting sponsors, and 5 Cybernet café sponsors have registered and exhibit registration closed. All meeting rooms assigned and Program of Events provided to the hotel. As of 5/13, 112 attendees registered and the room block is at 733 of the 1200 needed.
- 6/10: The chemistry meeting on Monday was flipped with the mentor session on Wednesday. As of 6/8, 200 attendees not counting exhibitors and the room block is at 1174 rooms of the 1320 minimum required.

#### 10.4 NGAB Evaluations

| 2025 Objectives                      | Status                                                                                                                                         |
|--------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------|
| Complete NGAB re-evaluation process. | 2/11: Schedule completed in February.<br>3/11: See summary in NEFAP and PTP. A2LA review of application material and checklist begins 3/15/26. |

## 11. TASK FORCES AND OTHER EFFORTS

### 11.1 Consumables Task Force

| 2026 Objectives                                                                                                         | Status                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |
|-------------------------------------------------------------------------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Prepare guidance document.                                                                                              | 2/11: Document provided to Policy in December 2025                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |
| Upon Policy Committee approval develop implementation tools and training for laboratories use of the Guidance document. | 4/8 Policy Committee comments and questions on implementation received. Comments primarily editorial and if approved by CTF would be accepted.<br>5/13 Final Policy Committee comments and suggestions for changes received and will be presented to the task force at the May meeting.<br>6/10 Task Force reviewed Policy committee comments/suggestions and with few exceptions found them acceptable. The introduction to Appendix E has also been redrafted and will undergo task force review in June prior seeking final Policy Committee approval. |
