V1M4 Combined
Revisions Draft May 7

The committee completed their review of all of the proposed changes to EL V1M4 during the meeting. Two issues remain to be finalized. While the committee has agreed upon its language the decision of the QMS expert committee regarding correction vs. corrective action and documented vs. reported may require additional review.

The plan is for Michelle to produce a “clean” copy of the DS and distribute it to all committee members. Recipients are being asked to thoroughly review the DS and supply any comments ASAP and/or be prepared to discuss any comments or proposed modifications at the June meeting of the committee. The committee intends to approve the DS for EL V1M4 and post it for public comment prior to the summer meeting in St. Louis.
