Review of Comments (R2C)

The comment period for EL V1M4 Draft Standard (DS) was extended to 120 days at the request of the AC. The comment period closes on December 13, 2025. All comments received prior to this date have been and will continue to be recorded on the Response to Comments form (R2C) and will be addressed by the committee with all commenters advised as to the disposition of their comment(s).

Committee review of the R2C began during the October 1, 2025 meeting, prior to the close of the comment period, in a effort to address Nicole's comments that accompanied her negative vote on the DS. This review ended at Section 6.2.a of the DS; R2C item #11.

Response to
Comment Form EL V1

A concern raised by the committee was the anticipated time that it will apparently take to get through all the comments and prepare/post a revision to the DS. One suggest was to form work groups with assigned sections of the current DS for review and recommendations to be addressed by the whole committee. This suggestion will be addressed during the December CEC meeting. It was recommended that the DS we are working with be "cleaned up" as there are numerous changes and suggestions presented. Bob and Nicole, with help from Michelle, will attempt to develop a "cleaned up" document to ease the continuing review process.

New/Old Business

No new or old business was presented.

The meeting was adjourned at 3:30 PM ET. The next scheduled meeting of the CEC will be on December 3, 2025, at 2:00 PM ET.
