CSDP update

We have reviewed the sessions in Boston with the committee. We decided to meet weekly until we post the draft so we can have it posted by March. We continued tackling comments on the Draft of V1M2 that we received in Boston and have finished comments for the body of the module. We will continue with the Annex and will likely spend the February 16 and 23 meetings on Annex C, which is why we're looking for the course information Paul mentioned below (thank you in advance Asbestos, Radio, and Micro!). We have 3 members rotating off and were able to approve 5 new members (for a full 15 voting members, 7 labs, 6 ABs, 2 Others): Jessica Jensen, Kim Fielder, Ali Boren, Lauren Webb, and Hunter Nelson. We will vote for Chair and Vice-Chair at our regularly scheduled March meeting.
